ACKNOWLEDGEMENT

I take this opportunity to express my sincere gratitude and respect to the ACS College of Engineering, Bangalore for providing me an opportunity to carry out my seminar report.

I express my deep regards to our honourable chairman **Dr. A. C. Shanmugam** for providing me an opportunity to fulfil my ambition in this prestige institute.

I would like to express my immense gratitude to **Dr. M. S. Murali**, Principal, ACS College of Engineering, Bangalore, for this timely help and inspiration during the tenure of the course.

I express my sincere regards and thanks to **Dr. T. Senthil Kumaran**, Associate Professor & HOD, Computer Science and Engineering, ACSCE, Bangalore for the encouragement and support throughout the work.

I express my sincere regards and thanks to **Mrs. Jyoti Metan**, Department Internship coordinator for giving valuable important suggestions, providing cooperation and moral support towards completion of Internship.

With profound sense of gratitude, I acknowledge the guidance, support and encouragement to my guide **Dr. V Mareeswari**, Associate Professor of Computer Science and Engineering, ACSCE, Bangalore.

I extend my thanks to **Mr. Sarfraz Ahamed**, Managing Director / CEO of SIDSYNC Technologies Pvt. Ltd. who have encouraged me through the course of internship.

I also extend my cordial thanks to **SIDSYNC Technologies Pvt. Ltd**, Chennai for providing me an opportunity to carry out the internship in its organization. I also would like to thank all my team members for their support and guidance.

LINGRAJ G NAYKODE

EXECUTIVE SUMMARY

This is an internship report on Student Timetable and Syllabus Android App. The objective of the internship is to gain knowledge, develop and improve business skills in technology, quantitative reasoning, decision making and teamwork. Meeting professional role models and potential mentors provide guidance, feedback and support.

This report is divided into four chapters. The first chapter deals with the introduction about the company which explains about the company overview and the services provided. Culture of the company and its key principles is also discussed. In order to understand about the department of the company, second chapter reveals some theoretical concept about introduction of Firebase and Android Studio. Study on some tools and technologies used in Android Application designing like JAVA, XML are done. The third chapter is about the tasks performed during internship training program. Technical knowledge on Firebase servers, tools and technologies used in designing of Android App. The fourth chapter tells about the internship experience gained, technical and non-technical outcomes with some screenshots of application design performed.

The major outcome of this internship training program is to gain knowledge by working with group of people on a technology of Android Studio and Google Firebase.
